

Best Glide

The Skylark EAA Chapter 1310 VMC CLUB "hangar flying" meeting represents a scenario-based discussion led by CFII Christopher Tarbell. Following the presentation, we will conclude with the question, "What would you do?" Through such discussions, you can build proficiency in flying and improve your Aeronautical Decision Making (ADM) and Threat and Error Management (TEM) - through education and experience become a better pilot. Our monthly meetings use real-world scenarios to engage our pilots and allow them to share their own experiences.
